Trade in Other Sections Keeps Very Good.

IRON MARKET IS STAGNANT

Money Is Easy and the Outlook for Man ufacturers During the Coming Year is Very Bright.

NEW YORK, Dec. 9.-R. G. Dun & Co.'s weekly review of trade will say: Business shows no decrease except that slackening in new transactions which is customary as the boliday season draws near. The volume of payments is as large as it ever has been. The apprehension of monetary disturbance from exports of gold has not yet been realized, and seems somewhat more remote than a week ago. Interior m ney markets generally show a strong demand, though money is actually close only at Cleveland, and apparently rather easier at most points. At all points representing the holiday trade opens more briskly than usual with prospect of a larger volume.

At Boston, cotton goods are in active demand with higher prices, and the output of the mills the largest for a long time. Woolen goods continue firm with large output. Boots and shoes find a larger trade than is usual, and the prospects are especially good. Rubber mills are well employed; leather is steady, and wool in fair demand. Shipments of hats from Danbury were 2,870 cases for the week. Hardware is active at Philadelphia and wool very quiet, though manufacturers are working to their full capacity. In dry go ds business is light, the jewelry trade is satisfactory. At Baitimore trade in cotton is quiet and active. Iron Dull.

Some duliness is seen at Pittaburg, with weaker Bessemer iron and reduced orders for finished products. The clothing trade at Cincinnati is astisfactory. Cleveland reports good trade in dry goods and groups and trade in dry goods and groceries, and fair in hardware and shoes. At De-troit business is fully equal to last year's, though retail trade is retarded year's, though retail trade is retarded by the weather. Trade at Chicago holds well, though in winter lines the mild weather retards. Trade in St. Louis is unusually strong, with clearings beyond all record, and especially activity in shoes, dry goods, tobacco and saddelry.

Money is in strong demand for grain and live stock trades at Milwaukee. At St. Paul and Minneapolis cooler weather is wanted for collections.

Business is good at Kansas City and fair at Denver, but unsatisfactory in

fair at Denver, but unsatisfactory in Arkansas, dull at Memphis and only fair at Nashville. At New Orleans trade is good, but not

up to expectations and money is only in fair demand. Cotton is strong and sugar in good demand with liberal re-ceipts. Speculative markets are com-paratively quiet, except for cotton, in which over 2,000,000 sales in a week are again reported and after a decline of \$c\$ there has been an equal

Wheat receipts continue very large, 3,300,000 bushels in three days, at the principal western ports, while exports are comparatively small. Oats are one-eighth and corn three-fourths lower, with little doing. Pork is attempted with the continue of the co stronger with hogs, but lard somewhat weaker.

Next Year's Outlook. In silver bullion there has been a large reaction. Exports of 500 tons of copper are noted, with Lake at 12½ cents; tin rose a shade, but then fell to 19½ cents, and lead is weak at 3½ cents. Boot and shoe makers have all the

Boot and shoe makers have all the work they can do, and shipments are larger than last year, the increase for the year being about 7 per cent. Cattle receipts at Chicago in November were the largest ever known in that month. The paper trade shows no change, with stocks at the mills being reduced. The business failures during the past seven days number for the United States, 271; for Canada, 26; a total of 297, as compared with 229 last week, 209 the week previous to the last and 320 for the corresponding week of last
